

## Standards – What’s Important

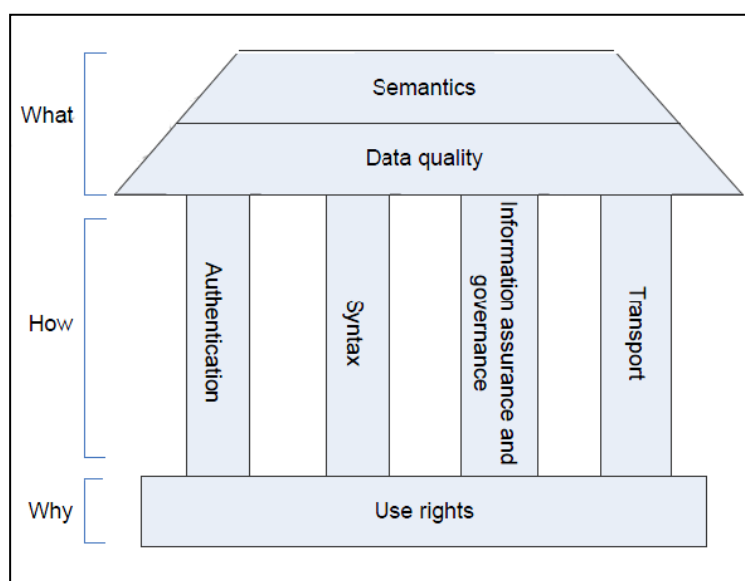

### 1. Doing things a standard way

#### Standards Hub:

- Suggestion (10)
- Challenge (5)
- Proposal (0)
- Decision (2)
  - [Cross-platform character encoding](#)
  - [Persistent resolvable identifiers](#)
- Implementation

#### Principles

- Digital by default
- Avoid tie-in
- Re-use

#### URI Sets

[Local authorities](#)

[Administrative geographies](#)

[CIPFA Finance categories](#)

Concepts: [Services](#), [Functions](#), [Circumstances](#), [Metrics](#)

[Legislation](#)

[Statistical geographies](#)

Companies: [Companies House](#), [Open Corporates](#)

[Designing URI sets for the UK public sector](#)

### 2. Quality Standards

**Digital by Default  
Service Standard**

[Government Service Design Manual](#)

**# LocalGov  
Digital**

[Digital Content Guidelines](#)
